

Pressing the Activation Push Button, Lighted button or not, activates all three timers

Relay #3 causes Push Button Light to go out if there is a light

Relay #3 causes the Push Button is deactivated

Relay #1 activated by Timer #1 activates the Fire Truck to leave the Fire House

Timer #1 times out in 1 second closing Relay #1 with no further action

Timer #2 times out in 30 seconds closing Relay #2 activating the Fire Truck to go back

Timer #3 times out in 70 seconds closing Relay #3 with the Fire Truck already in the station

Push Button is ready for activation and the Button Light is turned on if there is a light

Note * All relays are standard connections however the bases if used are not wired the same.**
